# MHS basic SB

The **MHS basic SB** is our classic machine and a reliable partner for your company. You and your customers can also benefit from our best-seller

as a self-service variant. You can look forward to satisfied customers.

## Facts that impress

- Tool-free felt change in seconds
- Soft feed for particularly gentle cutting
- Cuts almost all types of bread (also yeast plaits)
- Cleaning time savings of up to 50% when compared to conventional gates
- Low maintenance costs as particularly maintenance-friendly
- Energy-saving stand-by mode
- Tested safety (GS-tested)
- Cover with safety switching in the input area
- Optional safety light barrier in place of cover

## Hygiene that impresses

- Externally sited drive system prevents dust and cutting oil entering the drive area
- Shorter cleaning time thanks to easy accessibility and smooth surfaces
- Oiling without oil pump
- Easy to remove stainless steel cutting frames
- Cutting frame is dishwasher safe
- All necessary covers removable for cleaning without tool
